<b>1 Creating database objects</b>	<b>4</b>
------------------------------------	----------

The WAY4™ Housekeeping R2 module is used to delete historical data from the WAY4 database and to create backup copies of this data so that it can be restored later.

This document is intended for bank or processing centre employees who are responsible for setup of the Housekeeping module.

The following notation is used in the document:

- Field labels in screen forms are shown in *italics*.
- Key combinations are shown in angular brackets, for example, <Ctrl>+<F3>.
- Names of screen form buttons and tabs are shown in square brackets, for example, [Approve].
- Sequences for selecting user menu items or context menu items are shown using arrows as follows: "Issuing → Contracts Input & Update".
- Sequences for selecting system menu items are shown using arrows as follows: Database => Change password.
- Variables that differ for each local instance, such as directory and file names, as well as file paths are shown in angular brackets, as in <OWS\_HOME>.

Warnings and information are marked as follows:

Warnings about potentially hazardous situations or actions.

Messages with information about important features, additional options, or the best use of certain system functions.

# 1 Creating database objects

Supported version of Oracle Database for the archive database – Oracle 12c 12.2 and later.

To create database objects that are required for Housekeeping to archive data, do as follows:

- As the "SYS" user, run the script to create an <HSK\_OWNER> user:

```
<OWS_Home>/db/ssp.bat log=<log file path> connect=sys@<host>:<port>:<sid>  
<OWS_Home>/db/scripts/oracle/install/sys/create_hskarchive_owner.sql <HSK_OWNER  
username> <HSK_OWNER user password> <OWS_OWNER username>
```

In this script <host>:<port>:<sid> – host name, port and SID name of the database.

- As the <HSK\_OWNER> user, run the script of create objects that are required for WAY4 Housekeeping:

```
<OWS_Home>/db/ssp.bat log=<log file path> connect=<HSK_Owner>@<host>:<port>:<sid>  
<OWS_Home>/db/scripts/oracle/install/hskowner/install.sql <OWS_OWNER username>
```
