Diners Club (October 2020). Configuring Way4™ According to Payment System Requirements

03.50.30
20.09.2020

Contents

This document describes how Way4™ must be configured to comply with Diners Club requirements set forth in Release 20.2 documents.
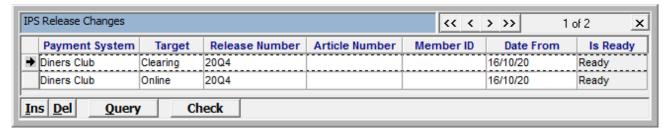

1.   Diners Club Settings

To comply with Diners Club requirements, the following Way4 versions must be installed at the bank or processing center:

- 03.50.30.58 (when version 03.50.30 is used)
- 03.51.30.12 (when version 03.51.30 is used).

These payment system requirements are supported by the Transaction Switch platform 1.1.419-7899.

To support payment system release requirements, the following settings must be made:

The following row must be added to the "IPS Release Changes" form (Full → Configuration Setup → Main Tables → IPS Release Changes):

The value in the *Date From* field must be specified according to the payment system's requirements.

For more information about the "IPS Release Changes" form, see the section "Support of payment system release requirements" of the document "Interchange Routing".

The payment system will notify banks of the date and time when the new requirements become effective.
